Summary and Notes

Valuation Discussion

Effective gross income for the trailing period was $204,000, representing a 3.9% increase over the prior year. Management fees are calculated at 7.0% of collected revenue and are included in operating expenses. Tenants are billed per kilowatt of contracted capacity with power pass-through at metered cost. Carrier-neutral meet-me room supports multiple fiber providers.

Management fees are calculated at 5.2% of collected revenue and are included in operating expenses. Debt service coverage ratio was 5.96x on a trailing basis against a covenant minimum of 1.20x. A reserve for replacements of $250 per unit has been underwritten in the cash flow below net operating income. The going-in capitalization rate of 7.82% reflects the in-place income and the stabilized occupancy assumption. Tenants are billed per kilowatt of contracted capacity with power pass-through at metered cost. Carrier-neutral meet-me room supports multiple fiber providers.

Management Commentary

On-site staffing consists of a property manager, assistant manager, maintenance supervisor and 43 additional team members. The manager completes a monthly walk of the property and submits a variance report to the owner by the 37th business day. Tenants are billed per kilowatt of contracted capacity with power pass-through at metered cost. Marketing efforts include digital listings, signage, broker outreach and a resident referral program. Preventive maintenance schedules for HVAC, elevators and life-safety systems were completed on time during the period. Carrier-neutral meet-me room supports multiple fiber providers.

Marketing efforts include digital listings, signage, broker outreach and a resident referral program. The facility is a purpose-built data center with 10 MW of critical IT load, N+1 power and cooling redundancy, and dual utility feeds. Collections for the period were 89.9% of billed charges, with bad debt of 5.7% of gross potential income. On-site infrastructure includes diesel generators, UPS systems, CRAC units and a biometric-controlled security perimeter. Service requests are tracked through a work-order system with an average completion time of 34 hours. Preventive maintenance schedules for HVAC, elevators and life-safety systems were completed on time during the period.
