PHASE I ENVIRONMENTAL SITE ASSESSMENT

Falcon Plaza | Columbus, OH

Site	Falcon Plaza
Address	7187 Peachtree Boulevard, Columbus, OH 46866
Prepared For	Keel & Compass Properties
Report Date	May 6, 2018
Standard	ASTM E1527-21

Site Description

The site contains approximately 15.15 acres and is generally level with frontage along Peachtree Boulevard. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. Access to the site is provided by 16 curb cuts and the property is served by municipal water and sanitary sewer. Surrounding land uses include residential, commercial and light industrial properties of similar vintage.

Surrounding land uses include residential, commercial and light industrial properties of similar vintage. The site contains approximately 34.34 acres and is generally level with frontage along Peachtree Boulevard. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. Access to the site is provided by 44 curb cuts and the property is served by municipal water and sanitary sewer. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect.

Records Review

No recognized environmental conditions (RECs) were identified in connection with the subject property. No evidence of underground storage tanks, stained soils or stressed vegetation was observed during the site reconnaissance. Based on the age of construction, an asbestos operations and maintenance program is recommended for suspect materials. Historical sources indicate the site was previously used for agricultural and light commercial purposes. A review of regulatory databases identified no listings for the subject property within the ASTM-specified search distances.

Vapor encroachment screening did not identify a condition requiring further evaluation. Historical sources indicate the site was previously used for agricultural and light commercial purposes. No recognized environmental conditions (RECs) were identified in connection with the subject property. A former dry cleaner located 8 blocks to the north is listed as a closed case and is not expected to impact the site. No evidence of underground storage tanks, stained soils or stressed vegetation was observed during the site reconnaissance.

Topography and Flood Zone

The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect. The site contains approximately 48.48 acres and is generally level with frontage along Peachtree Boulevard. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection.
