PHASE I ENVIRONMENTAL SITE ASSESSMENT

Driftwood Self Storage | Tempe, AZ

Site	Driftwood Self Storage
Address	6383 Liberty Boulevard, Tempe, AZ 97829
Prepared For	Sunbelt Ridge Acquisitions
Report Date	July 17, 2018
Standard	ASTM E1527-21

Site Description

The site contains approximately 8.8 acres and is generally level with frontage along Liberty Boulevard. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. Access to the site is provided by 35 curb cuts and the property is served by municipal water and sanitary sewer. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect.

Access to the site is provided by 9 curb cuts and the property is served by municipal water and sanitary sewer. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. The site contains approximately 42.42 acres and is generally level with frontage along Liberty Boulevard. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect.

Records Review

A review of regulatory databases identified no listings for the subject property within the ASTM-specified search distances. Vapor encroachment screening did not identify a condition requiring further evaluation. No recognized environmental conditions (RECs) were identified in connection with the subject property. No evidence of underground storage tanks, stained soils or stressed vegetation was observed during the site reconnaissance. Historical sources indicate the site was previously used for agricultural and light commercial purposes. A former dry cleaner located 4 blocks to the north is listed as a closed case and is not expected to impact the site.

Based on the age of construction, an asbestos operations and maintenance program is recommended for suspect materials. A former dry cleaner located 9 blocks to the north is listed as a closed case and is not expected to impact the site. No recognized environmental conditions (RECs) were identified in connection with the subject property. Historical sources indicate the site was previously used for agricultural and light commercial purposes.

Topography and Flood Zone

Utilities, including electric, natural gas and telecommunications, are available to the site from the street. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. Access to the site is provided by 29 curb cuts and the property is served by municipal water and sanitary sewer. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect.

The site contains approximately 31.31 acres and is generally level with frontage along Liberty Boulevard. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect. Access to the site is provided by 5 curb cuts and the property is served by municipal water and sanitary sewer. Utilities, including electric, natural gas and telecommunications, are available to the site from the street.

Findings and Opinions

Historical sources indicate the site was previously used for agricultural and light commercial purposes. A former dry cleaner located 5 blocks to the north is listed as a closed case and is not expected to impact the site. Vapor encroachment screening did not identify a condition requiring further evaluation. No recognized environmental conditions (RECs) were identified in connection with the subject property. Based on the age of construction, an asbestos operations and maintenance program is recommended for suspect materials.
