PHASE I ENVIRONMENTAL SITE ASSESSMENT

Kestrel Station District | Raleigh, NC

Site	Kestrel Station District
Address	1365 Medical Center Court, Raleigh, NC 88728
Prepared For	Anchorage Meadow Partners
Report Date	October 24, 2020
Standard	ASTM E1527-21

Topography and Flood Zone

Access to the site is provided by 38 curb cuts and the property is served by municipal water and sanitary sewer. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. The site contains approximately 5.5 acres and is generally level with frontage along Medical Center Court.

The site contains approximately 38.38 acres and is generally level with frontage along Medical Center Court. Access to the site is provided by 41 curb cuts and the property is served by municipal water and sanitary sewer. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect. Utilities, including electric, natural gas and telecommunications, are available to the site from the street.

Site Reconnaissance

Historical sources indicate the site was previously used for agricultural and light commercial purposes. A review of regulatory databases identified no listings for the subject property within the ASTM-specified search distances. A former dry cleaner located 6 blocks to the north is listed as a closed case and is not expected to impact the site. Vapor encroachment screening did not identify a condition requiring further evaluation. No evidence of underground storage tanks, stained soils or stressed vegetation was observed during the site reconnaissance. Based on the age of construction, an asbestos operations and maintenance program is recommended for suspect materials.

A review of regulatory databases identified no listings for the subject property within the ASTM-specified search distances. Historical sources indicate the site was previously used for agricultural and light commercial purposes. A former dry cleaner located 3 blocks to the north is listed as a closed case and is not expected to impact the site. No recognized environmental conditions (RECs) were identified in connection with the subject property.

Access and Utilities

The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect. Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. Utilities, including electric, natural gas and telecommunications, are available to the site from the street. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. Access to the site is provided by 36 curb cuts and the property is served by municipal water and sanitary sewer.

Soils are typical of the region and no evidence of unsuitable conditions was observed at the time of inspection. Surrounding land uses include residential, commercial and light industrial properties of similar vintage. The site contains approximately 20.20 acres and is generally level with frontage along Medical Center Court. Access to the site is provided by 32 curb cuts and the property is served by municipal water and sanitary sewer. The site is not located within a designated 100-year floodplain according to the FEMA flood map in effect.

Findings and Opinions

Vapor encroachment screening did not identify a condition requiring further evaluation. No recognized environmental conditions (RECs) were identified in connection with the subject property. Based on the age of construction, an asbestos operations and maintenance program is recommended for suspect materials. Historical sources indicate the site was previously used for agricultural and light commercial purposes.
