Summary and Notes

Operating Performance

Operating expenses totaled $265,000 or approximately 36.98 per square foot, with real estate taxes representing the largest line item. On-site infrastructure includes diesel generators, UPS systems, CRAC units and a biometric-controlled security perimeter. Net operating income is projected to grow at a compound annual rate of 7.0% over the hold period. Debt service coverage ratio was 6.06x on a trailing basis against a covenant minimum of 1.20x. The going-in capitalization rate of 6.52% reflects the in-place income and the stabilized occupancy assumption. A reserve for replacements of $250 per unit has been underwritten in the cash flow below net operating income.

The facility is a purpose-built data center with 18 MW of critical IT load, N+1 power and cooling redundancy, and dual utility feeds. Carrier-neutral meet-me room supports multiple fiber providers. Management fees are calculated at 5.3% of collected revenue and are included in operating expenses. Debt service coverage ratio was 5.27x on a trailing basis against a covenant minimum of 1.20x. Net operating income is projected to grow at a compound annual rate of 6.3% over the hold period.

Management Commentary

Collections for the period were 91.1% of billed charges, with bad debt of 5.8% of gross potential income. The facility is a purpose-built data center with 36 MW of critical IT load, N+1 power and cooling redundancy, and dual utility feeds. Marketing efforts include digital listings, signage, broker outreach and a resident referral program. On-site staffing consists of a property manager, assistant manager, maintenance supervisor and 32 additional team members. Service requests are tracked through a work-order system with an average completion time of 2 hours.

Service requests are tracked through a work-order system with an average completion time of 48 hours. Collections for the period were 92.3% of billed charges, with bad debt of 5.6% of gross potential income. On-site staffing consists of a property manager, assistant manager, maintenance supervisor and 48 additional team members. The manager completes a monthly walk of the property and submits a variance report to the owner by the 2th business day. The facility is a purpose-built data center with 26 MW of critical IT load, N+1 power and cooling redundancy, and dual utility feeds.
