Business Plan Progress

The investment thesis is based on stabilizing occupancy, completing the capital plan and capturing rent growth to market. The property is located adjacent to a regional hospital campus and benefits from referral-driven tenancy. Key risks include interest rate exposure, tenant rollover, construction cost overruns and local supply additions. The business plan contemplates a hold period of 8 years with disposition upon achievement of target returns. Patient parking and ADA-compliant access are provided at a ratio of 8 spaces per 1,000 square feet.

Distributions to investors for the quarter were paid at an annualized rate of 5.1% on contributed capital. Rents average $36 per square foot modified gross and leases include tenant improvement allowances for specialized buildout. Projected levered IRR is 3.1% with an equity multiple of 1.8x over the hold period. Leasing velocity improved during the period and management expects further upward pressure on in-place rents. The business plan contemplates a hold period of 3 years with disposition upon achievement of target returns.
